VOL. XVI

RENO, WASHOE COUNTY, NEVADA, FRIDAY, NOVEMBER 2, 1883.

NO. 29

MISCELLANEOUS.	MISCELLANEOUS.	MISCELLANEOUS.	MISCELLANEOUS.	PROFESSIONAL.	MISCELLANEOUS.	MISCELLANEOUS.
DR. LIEBIG RESTORED. Dispensary Cor., Geary and Mason Sts., San Francisco, Cal. THE COLLEGiate INSTITUTION for the treatment of special diseases and so-called incurable chronic diseases. Dr. Liebig's German Invigorator is positive in its removal of nervous and physical debility, neuralgic, rheumatic, gouty, & all other diseases. Lost Manhood, Impotency, Seminal Weakness, Gonorrhœa, &c. Surgery, Rolling and Distracting in the Head, Measles, &c. Hopelose and all the results of youthful imprudence and excesses of mature years. The Doctor, a regular physician from Europe, will agree to forgive one thousand dollars for a case the Invigorator will not cure under special circumstances. The reason so many cannot get cured of Weakness and the above diseases is owing to the fact that they call it FRONTATOREUM, which requires peculiar treatment. Dr. Liebig's Invigorator No. 3 is the only positive article for Prostatitis, &c. Price of either Invigorator, \$2 per bottle; six for \$10. Sent to any address on receipt of price, or C. O. D. responsible persons can pay when cured. Address Dr. Liebig, 105 Geary Street, San Francisco, Cal. Patients cured at home. Dr. Liebig's Dispensary has an Elegant Drug Store in its building. Too frequent evacuation of the Bladder and Kidneys, resulting in symptoms of Seminal, Seminal Weakness, and Prostatitis. Complaints readily yield to the DR. LIEBIG TREATMENT.	ODOOMETER WILL TELL. This instrument is no larger than a watch. It tells the exact number of miles driven to the 1/100 part of a mile; counts up to 1,000 miles; water and dust tight; always in order; saves horses from being overdriven; is easily attached to the wheel of a Buggy, Cart, sulky, Wagon, Road Cart, Sulky Plow, Reaper, Mower, or other vehicle. Invaluable to Livermen, Pleasure-Drivers, Physicians, Farmers, Surveyors, Draymen, Expressmen, Stage-Owners &c. Price only \$8.00 each, one-third the price of any other Odometer. When ordering give diameter of the wheel. Sent by mail on receipt of price, post-paid. Address MCDONNELL ODOMETER CO. 2 North La Salle St., Chicago. Enclose for catalog.	BETTER THAN GOLD. MERRY CHRISTMAS.

To everyone who settles his old subscription account or makes a new one between now and Christmas, we will give as a premium the *Continental* magazine, a handsomely illustrated journal published monthly. This applies to both daily and weekly, but not to club rates.

FORMATION OF ORE VEINS.

The formation of ore veins, according to the showing of Dr. Fleitmann of Germany, does not necessarily involve such long periods of time as geologists have assumed. Dr. Fleitmann states that some two years ago he had the bottom of a stable pit filled and rammed with common clay containing iron. The pit had served its purpose for storing manure for about two years, during which time, occasionally to prevent overheating, water had been poured over it. Lately it had become necessary to remove the pit, when the surprising fact was revealed that the clay had entirely changed in character, and had become white; it was, moreover, divided in numerous directions by fissures from 1-25 to 1-16 of an inch in width, which were filled by compact iron pyrites. The explanation offered of this remarkable phenomenon is that the iron oxide of the clay was changed by the water, containing sulphate of ammonia, into sulphate of iron, and the latter had, in accordance with molecular attraction, deposited itself in groups of fissures—the form in which it was found.

EDITORIAL NOTES.

The commissioner of the United States renews his recommendation that the pre-emption law be repealed, and the homestead act be amended; also the total repeal of the timber culture law. On the desert land act he finds entries have been largely made for speculative purposes with no intention of reclamation. He says the timber and stone land act is flagrantly violated.

The Ohio Democrats have reason to be proud of the scholarly abilities of the man they recently elected Governor, says the *Call*. It is said that Mr. Hoadley understands shorthand, can telegraph, and is a master of classics. To couple his name with the Presidency, therefore, seems not at all out of place. With such acquirements he ought to be fitted for the office.

The disposal of public land during the year embraced 19,073,789 acres and Indian lands, 398,235 acres, making the increase over 1882 of about 5,000,000 acres, and over 1881 of about 8,000,000 acres. Receipts from all sources were \$11,088,479, and from sales of Indian lands, \$625,404; total, \$11,713,883.

The coinage executed at the mints during October was \$5,284,704 of which \$2,550,000 was silver dollars. The Treasury to-day purchased 400,000 ounces of silver for Philadelphia, New Orleans and San Francisco mints.

Pikes Peak has been surveyed for a narrow gauge railway from Manitou to the summit—30 miles—and work is to be commenced at once. The maximum grade is to be 300 feet to the mile.

Municipal elections were held throughout the United Kingdom yesterday. The results show large Conservative gains.

TELEGRAPHIC BREVITIES.

The West Boylston, Mass., schools have been closed by diphtheria.

A terrific storm is reported in the vicinity of Cleveland, Ohio; Lake Erie being fearfully agitated.

A large part of Willoughby, Ohio, was destroyed by fire this morning.

The Irish parishioners of a Catholic church in Montreal, lately left the church en masse during some objectionable remarks by the French crew, and they have petitioned for an investigation of his conduct.

EASTERN DISPATCHES.

[PRESS DISPATCHES TO THE GAZETTE.]

Just the Man.

CHICAGO, November 2.

The new commissioner, G. W. Ristine, is a man of extensive railroad experience, and is known as a remarkably cool, clear-headed man. He first became generally known as founder of the Empire line, which he built up to a handsome property. He then accepted the position of assistant to the President of the Denver & Rio Grande road, and later General Superintendent of the entire system. He resigned to become General Manager of the Texas & St. Louis road, where he has established a reputation whose direct fruits are seen in the tender of this situation. About two weeks ago he left the Texas & St. Louis on the plea that he was thoroughly tired out and he said he proposed to rest until January. The position of Assistant General Manager of the Denver & Rio Grande has been offered Mr. Ristine, and the offer was being favorably considered. He has at least two other good offers under consideration, either of which would be equally desirable with the California Pool Commissionership. The universal verdict among railroad men is that the choice is an exceedingly good one. The position has been generally regarded as a most difficult one to fill and some doubt has been expressed as to the possibility of finding a man to successfully wrestle with the giant. Ristine's selection had the effect of creating some surprise that he was not thought of before, as he is known to be eminently qualified for the place.

Railroad Matters.

CHICAGO, November 2.

C. M. Wicker, formerly General Freight Agent of the Baltimore & Ohio, and Assistant Manager of the Chicago & North Western, but now Manager of the Central Illinois Coal Co., was chosen to-day as agent of the Merchants' Freight Bureau of this city, recently organized by the business men, to look after their interests as shippers.

The Union and Northern Pacific Roads issued to-day a circular to the effect that arrangements are perfected for the interchange of passenger traffic to and from the Pacific coast at Garrison, Montana, the junction of the Northern Pacific with the Utah and northern division of the Union Pacific. General passenger agents are instructed to at once begin to sell tickets by way of Garrison to all points on the line of the Oregon Railway & Navigation Co., including San Francisco and all points on the Oregon & California Railway to Wallula Junction, but not to points west beyond Portland nor east beyond Wallula Junction.

Northern Pacific.

Sr. PAUL, November 1.

General Manager Haupt of the Northern Pacific Railroad, says his resignation was entirely due to the policy of radical retrenchment adopted by the Northern Pacific Company, which practically tied his hands and prevented the proper running of the road. In explaining the cause of the expenses, General Haupt said the construction department turned the road over to the operating department in a very incomplete condition, the rails having been laid so badly, that though trains can be run over the road, they cannot be run with any degree of safety or speed. In the pursuance of the retrenchment policy, the Vice President of the road will act as General Manager.

Double-Team Record Lowered.

PROVIDENCE, November 1.

One thousand people saw all previous double-team records badly beaten at Narragansett Park to-day. The track was in magnificent condition. The contesting horses were H. B. Winship and Hiram Bruce (the latter was a mate to Yellow Dock when she made her record on this track a year ago) and Frank and John Nay. Before the horses were called, Frank and John Nay sold for \$50 to \$10 and \$35 and then even. After the first heat the betting was two, to one on H. B. Winship and Hiram Bruce. The latter pair were not headed or forced during the race and showed the fastest double-team heats on record. Summary—H. B. Winship and Hiram Bruce, 1, 1; Frank and John Nay, 2, 2; 2; time, 2:16, 2:10%, 2:11%.

Sent to Corea.

WASHINGTON, November 2.

The Secretary of the Navy has detailed Ensign John B. Berndan to proceed to Corea, for the purpose of making a report on the geological and other scientific features of that island.

The Secretary of State has received

from the Geographical Society of France, a very handsome gold medal,

intended as a testimonial to Lieutenant

Frederick B. Schwatka, of the United

States army, in recognition of his ser-

vices in a successful expedition to

King William's Land in 1879 and 1880.

United States Central Railroad.

CHICAGO, November 2.

Charles Lessson, one of the attor-

neys of the projected United States

Central Railway, states that the

represented syndicate of English capitalists, who a few years ago visited California and examined the route, had made the surveys and all that the road asks is the right of way; no subsidy will be asked for. The projectors of the road are engaged in an individual enterprise, and will not seek for national aid.

The route lies through grazing and rich mining regions in which these capitalists are interested, and they want to develop those regions and open up their mines; but as they desire to have a road connecting somewhere they have designed to make a continental road of it. Arrangements have been made, and as soon as the South Pacific coast, Ocean Shore and other roads and franchises that have been received are consolidated, work will begin, which will be about next Spring. Mr. Lessson declined to give the names of the members of the English syndicate he represented, or state the amount of their stock. He also represented a party of German capitalists. T. H. Goodman, General passenger Agent of the Central Pacific, now attending a meeting in this city, on being questioned, said such a road had been contemplated for several years by Messrs. Walker and Bridges; that the road sought to enter San Francisco by the Ocean Shore route from Santa Cruz up to North Beach.

Mr. Goodman was under the impression that this route had been abandoned, and they were now seeking an entrance over the South Pacific Coast Railroad, which runs through San Clara valley to Alameda, and from there they could cross to San Francisco by ferry boats. This road was opened by Senator Fair and Mr. Flood, and Mr. Goodman thinks the projectors will endeavor to get it. In answer to a question as to whether he thought Senator Fair and Mr. Flood were interested in the enterprise, Mr. Goodman said they were not probably interested further than in selling their road.

A Fatal Railroad Accident.

CLARINDA, Ia., November 2.

The Cannon Ball train over the Humestone & Shenandoah road, going east, was wrecked Wednesday night at the trestle works over the west fork of the river, five miles east of Shenandoah. The engine, baggage car and one coach rolled down the embankment 50 feet. The sleeper remained on the track. The engineer was killed and the fireman and express messenger were seriously injured. The accident is ascribed to the displacement of a rail on the west of the bridge, by train wreckers, for the purpose of robbery.

Declines to Make a Statement.

CHICAGO, November 2.

Attachments to the amount of \$40,000 were issued this afternoon against the Rock River Paper Company. The manager declines to make any statement. The concern was one of the heaviest of the kind in the country.

Want a Change.

NEW YORK, November 2.

The following dispatch from Jamaica dated this morning, has been received: The monster political meeting last night in Kingston was a great success, being an immense demonstration against the present system of Government.

A Good Appointment.

CINCINNATI, November 2.

Judge Foraker has been appointed by the United States Circuit Court, counsel for the Receiver of the Toledo, Cincinnati & St. Louis Railroad.

FOREIGN DISPATCHES.

[PRESS DISPATCHES TO THE GAZETTE.]

A Large Reward.

LONDON, November 2.

The Government and railway authorities offer a reward of £5,000 each for information leading to the arrest and conviction of the persons connected with the latest explosion. The physicians say that dynamite must have been used to rupture the membrane of the tympanum of the people injured.

The Orleans Princes.

PARIS, November 2.

Lloyd's statement is declared untrue that the Orleans Princes sounded Bismarck on their claim to the throne of France, and he made a reply affording no hope that Germany would approve of such a course.

A Liberal Bishop.

LONDON, November 2.

Bishop Thorold of Rochester has expressed his hearty approval of the Moody and Sankey mission, and urges the clergymen of the established church to help it.

The annual report of the Paymaster General of the Army to the Secretary of War, shews the receipts for the last fiscal year, \$15,490,310; disbursements, \$15,382,164. The remainder has been deposited in the Treasury.

Since the last report, five officers of the pay department have been retired, having attained the age of 64; one died, and one has been dismissed

for misappropriating public funds.

ROYAL BAKING POWDER CO., 404 W. Wall street, New York.

INDEED YOU WILL!

MISCELLANEOUS.

AYER'S PILLS.

A large proportion of the diseases which cause pain, suffering result from derangements of the stomach, bowels, and liver. AYER'S CATHARTIC PILLS act directly upon these organs, and are especially designed to cure the diseases caused by their derangement, including Constipation, Indigestion, Dyspepsia, Headache, Dysentery, and a host of other ailments, for all of which they are a safe, sure, prompt, and pleasant remedy. The extensive use of these PILLS by eminent physicians in regular practice, shows unmistakably the estimation in which they are held by the medical profession.

These PILLS are compounded of vegetable substances only, and are absolutely free from calomel or any other injurious ingredient.

A Sufferer from Headache writes:

"AYER'S PILLS are invaluable to me, and are my constant companion. I have been a severe sufferer from Headache, and your PILLS have quickly relieved me, and given me relief. One dose will quickly move my bowels and free my head from pain. They are the most effective and the easiest physio I have ever found. It is a pleasure to me to see how well they work, and I always do so when occasion offers."

W. L. PAGE, of W. L. Page & Bro., Franklin St., Richmond, Va., June 3, 1882.

I have used AYER'S PILLS in numberless instances as recommended by you, and have known them to be of great service in the desired result. We constantly keep them on hand at our home, and prize them as a pleasant, safe, and reliable family medicine. FOR DYSEPSIA they are invaluable.

Mexia, Texas, June 17, 1882.

The Rev. F. HARLOWE, writing from Atlanta, Ga., says: "For some years past I have been subject to constipation, from which, in spite of the use of medicines of various kinds, I suffered increasing inconvenience, until, in the month of May, I began taking AYER'S PILLS. They have entirely corrected the constive habit, and have vastly improved my general health."

AYER'S CATHARTIC PILLS correct irregularities of the bowels, stimulate the appetite and digestion, and by their prompt and thorough action give tone and vigor to the whole physical economy.

PREPARED BY
Dr. J. C. Ayer & Co., Lowell, Mass.
Sold by all Druggists.

YOUNG,
OLD, AND
MIDDLE-
AGED.

the remedy for you. Sold by Osburn & Shoemaker.

HACKMETACK, a looting and incendiary

perfume. Price 25 and 50 cents. Sold by

Osburn & Shoemaker.

GENERAL NOTES.

Democratic leaders in Maryland admit that the situation is serious, and that their State ticket is in danger.

Never before was there such a demand for James G. Blaine by the bone and sinew of the Republicans as there is at the present time. The office-holders dare not clamor for him, as they fear the Administration lash, but the people want him to the fore.—Sac. Bee.

The Hon. John Quincy Adams, who has been five times the Democratic candidate for Governor of Massachusetts, is announced to preside at a Republican meeting, shortly to be held in the town of Quincy, his residence.

LOPPING OFF.—N. C. McFarland, Commissioner of the General Land Office at Washington, the dispenser, is gradually reducing the number of local United States offices at the opportunity for retirement occurs. We have had one instance of it in Nevada recently, but perhaps the consolidation of the Carson and Eureka offices may not take place, there being such efforts to counteract it.—Eureka Sentinel.

The Austin Reveille says: "The Utah Western will probably run between 90 and 100 miles south of Austin. As the Nevada Central is controlled by the parties at the head of the Utah Western it is very plain they will extend the little road up the Reese river valley to tap their trans-continental line, giving the little road great importance as a connecting link and as a feeder. This will give Lander county much more taxable property, lower her fares and freights and give us an outlet."

The Henley correspondent of the Yreka Union tells the following: "There is a curiosity here in the shape of an apple tree, growing in the orchard of Mrs. Hilt. It is a species of vine, running over a large area, and supported by an arbor about two feet high. The apples are tolerable for eating or preserving, and are plentiful upon the bush. If Adam and Eve had owned one of these odd bushes they would not have been obliged to climb after fruit."

George C. Gorham will be the choice of the Senate for Secretary in March next. Mahone and Riddleberger, the Senators from Virginia, are both for him and against any other candidate, and their votes are needed in the construction of committees, and their motto is, "No Gorham, no committee," and they are right. If they intend making a fight for a man, they should not do so in a sort of half hearted way, infinitely worse than a square opposition. Your emasculated fighter in any sort of a contest lacks that virility which leads to pronounced success, and he had better be dead than to obstruct the way. Another thing is, there is no opposition to Gorham in California. It has died out. There was a time when the standard of opposition was raised against him, but it has been buried. He is a man of great executive ability, clear brains and plenty of them, aggressive and intelligent. He has our best wishes for his success.—S. F. Spirit of the Times.

In Nevada there are hundreds of places where dams of small size would create immense reservoirs of water for use either for milling purposes or for the irrigation of agricultural lands. In many places along the Sierras streams and canyons head in large flats or valleys, which streams or catcans are the only outlet for the water drained from the snow melting on many square miles of hill. In such cases dams of no great length or height would form large lakes.

Not only are such places to be found in the Sierras, but also in hundreds of places in the interior ranges of mountains and hills. It is time the ranchmen should cease fighting about the natural water supply, and take steps for storing up artificially that which would give all ten times the quantity they now command.

Nevada has a very good Constitution. True, it is in some respects a little high pressured, but taken altogether it suits the requirements of the occasion as well as does the organic law of any State. There are a few defects which can be easily repaired by the Legislature at slight cost, but nearly every clause has been subjected to the scrutiny of the Court of last resort, and it is known that most of it will bear the test of judicial investigation. In a few trifling particulars beneficial changes might be made, such as consolidation of State and county offices. The consolidation of counties needs no amendment, the Legislature can make or unmake counties when it sees fit; this is one of the principal reasons for the anxiety displayed by some to have a consolidation. In answer to the calls for a Convention it is not a good idea to suggest that those who so earnestly desire a sweeping change should put forward the alterations which seem to be so urgently needed. Any amendment which is merititious can receive the endorsement of both parties and there will be no difficulty attending the passage of resolutions, by the Legislature placing the needed improvements before the people. Let those who are ravenous for amendment state their grievances. They may easily publish such amendments as are desirable and if it will at all conduce to greater economy in the management of the State and county business, the people will vote to sustain the measure.

Mr. Harrod is a young and dapper little colored man who manages the

barber shop in the Revere House, Broadway and Houston street. He is well known to many society people and to most of the politicians about town, and is regarded by his friends as one of the most artistic members of his profession in the city. When a Mail and Express reporter called at his establishment he was found busily employed in lathering a patient preparatory to removing a heavy growth of beard. It was apparent from the deft manner in which he handled his subject that he was a master hand in his craft.

"Yes, sir, I take a pride in my profession, as I have a right to, for in my time I have cut the hair of and have made happy some of the foremost men in the country. I claim to be both artistic and classic in my business and won't take a back seat for any colored or white barber in America. For, for instance, there is President Arthur. I have had the honor of soothoing his cares and making him feel young and sprightly with my razor and scissors and he has never left my chair without expressing his thanks for my artistic work. The President is one of the most amiable and quiet men I ever put a razor to. Always when he comes in he says 'Good morning, Mr. Harrod,' or 'Good afternoon.' Mr. Harrod removes his coat and vest, sinks into the chair and tells me what he wants. His whiskers, which are sprinkled with gray, are fine and silky like his hair, and I usually trim them in the English style. In cutting his hair I give him the Pompadour, which consists in trimming evenly, but not so short all round; the top, which is inclined to curl, is handled very carefully, so as not to spoil its contour. When I next shave him I expect he will like the velocipede cut. This is comparatively new and finds much favor among my high-toned patrons. It is an English invention and is not unlike the Pompadour in some respects. The horse-shoe is another feature. In this we shingle all over, but not too close, leaving a graceful point at the back of the neck and a rounded curve in front. It is a sort of dandish, but it is popular. Mr. Tilden
